

## **Prof. A.W. Mailvaganam Memorial Oration – 2018**

**Title: Standardization: Some facts**

**Speaker: Mr. Susantha G. Punchihewa**  
**(Ex-SLSI)**

**Venue: New Physics Lecture Theatre (NPLT)**  
**3<sup>rd</sup> Floor, Department of Physics**  
**University of Colombo**  
**Colombo – 03.**

**Date & Time: November 17, 2018 (Saturday) at 5.30 p.m.**

**(Refreshments will be served before the oration at 5.00 p.m.)**

### **Summary of the Oration**

STANDARDIZATION is a concept that exists in nature. Once MAN deviated from the ancient calm pattern of life, as a result of the various developments he had to soon find ways of ‘creating order out of chaos.’ Standardization has been considered as a tool for same. Global Interactions has been facilitated through International Standardization. The path followed to reach the present state will be discussed in the Lecture.

**All are Welcome !!!**
